

# WEST BROWNSVILLE LITTLE LEAGUE

PO Box 4881, Brownsville, Texas 78526  
1295 Cottonwood Drive, Brownsville, Texas 78520

March 20, 2020

## **CORONAVIRUS COVID-19 NOTICE (UPDATE)**

Parents / Coaches,

Our national, state and local government entities have asked all of us for our voluntary cooperation to help stop the spread of the virus. Little League Headquarters has asked us to do the same by extending our temporary stoppage through May 11. Our board of directors has elected to follow these recommendations.

However, the consensus amongst our Rio Grande Valley District 24 league presidents is to follow the lead of our local school districts. If normal campus classes resume before May 11, we may likely resume things before that date as well, subject to any city and state limitations for us to do so.

As requested previously, during this temporary stoppage, we are requesting that no meetings, practices, games, or get-togethers take place that involve our registered players. The common sense thing to do is avoid group situations and contact your physician immediately with any health concerns.

With that said, there is no reason that players should stop training in their backyards with their family's help. Pushups, sit-ups, running in place, tossing a ball with a parent, and hitting a ball into a net are things that all players can continue to do to stay in baseball shape.

Thank you for your continued patience and understanding,  
Dino X. Chavez  
President
